Broadway - It's broad enough for all of us!

There is no safe, convenient way for bicyclists to get downtown to/from North Oakland. You can help get bike lanes on Broadway (north of 40th Street) and the Webster and Franklin Streets to connect a contiguous north south bike route.

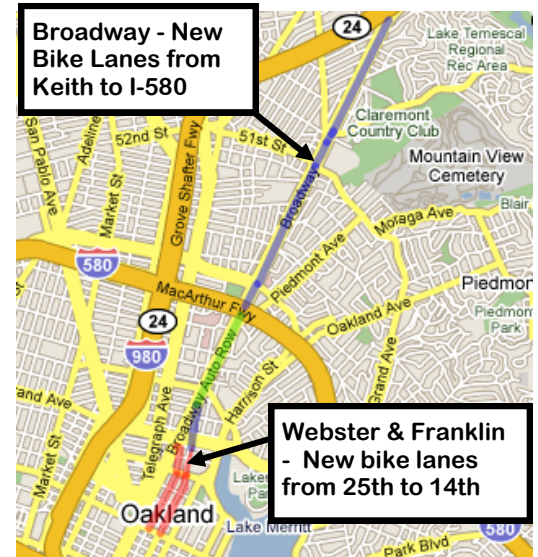

- This project is included in the Bicycle Master Plan that the City Council passed in Dec 2007.
- Broadway / 27th St was the third most bike-car accident prone intersection from 2000-2004.
- An Environmental Impact Report and a feasibility study for this project are done.
- This is not a project that involves expensive or extensive work —it's just paint on the pavement!

Take Action:

Ask the City Council to get this project done.
